

Project Initialization and Planning Phase

Date	29 November 2024
Team ID	739984
Project Name	AI-Generated vs. Real Image Classifier Using Deep Learning.
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am a	Media professionals and cybersecurity analysts.
I'm trying to	Accurately classify AI-generated vs. real images.
But	AI-generated images are increasingly realistic and hard to detect.
Because	Deep learning models require large datasets and specialized tuning.
Which makes me feel	Overwhelmed by the challenge of maintaining content authenticity.
